Additionally, it will identify any amounts needed to close cases and Initial Deposit and Amount Due with Acceptance shortages for basic cases and Amendments implemented without payment of the total amount identified, respectively.

This SBA will include all implemented FMS cases. Special cash requirements for Bandaria unique FMS programs such as F-35 and V-22 and their related support cases will be separately identified.

LOA payment schedules will not be adjusted to reflect the revised payment requested in the Special Bill Letter (SBL), but should be reviewed by the Implementing Agency on a regular basis and updated as needed (by Modification or Amendment) to more accurately reflect financial requirements.

The DoD reserves the right to bill out-of-cycle for additional amounts if the amount previously billed proves to be inadequate to support actual expenditures for the billed period. The MoD may pay additional funds against FMS cases at any time.

4. **Implementation of this SBA:** This SBA is implemented as described in the annex attached.
5. **Effective Date:** This arrangement shall enter into force at [Date TBD], but not before all required signatures are subscribed hereon.
6. **Termination:** Notification of SBA termination must come in the form of an official letter which will provide 30 days' notice. Upon termination, billing reverts to the standard DD 645 billing statement. In order to facilitate this transition, DSCA will calculate a final bill letter with an amount due based on the latest DD 645 billing statement amount and your current cash position. When the next quarterly DD 645 billing statement is available, the FMS partner will recommence payment in accordance with that official billing statement. If the FMS partner is unable to pay the final amount due, then the FMS partner must notify the DSCA Country Finance Director as soon as possible in order to work on restructuring payments in accordance with the Security Assistance Management Manual (SAMM), Chapter 9. Delayed repayment may result in FMS program restrictions.
